

LEAP-Agri – List of projects selected for funding

ID	Acronym	Project Title	Indicative list of countries Involved
57	WAGRINNOVA	Co-innovations across scales to enhance sustainable intensification, resilience, and food and nutritional security in water-managed agricultural systems in West Africa	Burkina Faso, Ghana, Netherlands, Senegal, Spain
65	MUSBCEA PROJECT	Multi-sectoral strategy for brucellosis control in Eastern Africa	Germany, Kenya, Spain, Uganda
77	PASUSI	Participatory Pathways to Sustainable Intensification. Innovation platforms to integrate leguminous crops and inoculants into small-scale agriculture and local value chains	Finland, Ghana, Norway, Uganda
99	Pest-free fruit	Sustainable intensification of fruit production systems through innovative pest biocontrol technologies	Belgium, Finland, France, Kenya, Senegal
114	EaTSANE	Education and Training for Sustainable Agriculture and Nutrition in East Africa	Germany, Kenya, Netherlands, Uganda
127	SPEAR	Empowering small-scale farmers (SPEAR): towards the SDGs through participative, innovative and sustainable livestock and poultry value chains (LPVC)	Ghana, Kenya, Norway, Senegal, Spain
146	Project AFRICA	On-site air-to-fertilizer mini-plants relegated by sensor-based ICT technology to foster African agriculture	Germany, Ghana, Netherlands, Portugal, South Africa, Uganda
159	STEP-UP	Sustainable Transition to Entrepreneurial Production in Agriculture through Upgrading	Germany, Kenya, Netherlands, Uganda
168	VITAPALM	Improving nutritional quality and stability of palm oil produced by African smallholders to fulfil African consumers' needs	Cameroon, France, Germany, Ghana
208	AFRICA-MILK	Promote ecological intensification and inclusive value chains for sustainable African milk sourcing	Burkina Faso, France, Kenya, Madagascar, Netherlands, Senegal
215	RAMSESII	Roles of Agroforestry in sustainable intensification of small farMs and food SEcurity for Socletles in West Africa	Burkina Faso, France, Netherlands, Senegal
220	MeTVAC	Ecosmart Alternative Control Strategies against T. annulata and its Tick Vectors	Algeria, Egypt, Portugal, Turkey, United Kingdom of Great Britain and Northern Ireland
222	LEARN	Long term Europe-Africa Research Network	Cameroon, Germany, Netherlands, South Africa
229	CLISMABAN	Phenotyping the banana biodiversity to identify climate smart varieties with optimal market potential in Africa and Europe	Belgium, Kenya, Spain, Uganda
259	NOURICITY	Partnerships for Healthy Diets and Nutrition in Urban African Food Systems – evidence and strategies	Ghana, South Africa, Uganda, Germany, The Netherlands
271	UniCARSSA	University-based Community Action Research for Increasing viability of cereal-legume value chains towards improved nutrition and livelihoods in sub-Saharan Africa	Kenya, Netherlands, Portugal, Uganda
273	SERVInnov	Strengthening innovation support SERVICES to enhance INNOVations for sustainable food production, ensuring well-being of rural populations and reducing environmental degradation and resource depletion	Burkina Faso, Cameroon, France, Germany, Madagascar
281	Food4Cities	Exploring food system transformations in rapidly changing African cities	Belgium, Netherlands, South Africa, Uganda
282	SmallFishFood	Small Fish and Food Security: Towards innovative integration of fish in African food systems to improve nutrition	Germany, Ghana, Kenya, Netherlands, Norway, Uganda
288	CASSANDRA	CASsava Sustainable Advancement & Nurturing by discovery of Disease Resistance Alleles	Belgium, France, Kenya, South Africa
326	OPTIBOV	Genetic characterization of cattle populations for optimized performance in African ecosystems	Egypt, Finland, Netherlands, Portugal, South Africa, Uganda
345	MuVHA	Multivalent inactivated vaccine against heartwater in Africa	Benin, Burkina Faso, France, Niger, Portugal, South Africa
350	ATMA4FS	Agricultural Trade and Market Access for Food Security: Micro- and Macro-level Insights for Africa	Belgium, Germany, Ghana, Netherlands, Senegal, South Africa
360	Ento-Economy	Enhancing food and nutrition security through promotion of edible insects value chain in Eastern Africa	Belgium, Germany, Kenya, Uganda
400	NUTRIFOODS	Innovative approaches to value-addition and commercialization of climate smart crops for enhanced food security and nutrition in Africa and beyond.	Finland, Kenya, Netherlands, South Africa, Uganda
465	SESASA	A Social-Ecological System Approach towards a Sustainable Intensification of Agricultural Production in Sub-Saharan Africa	Burkina Faso, France, Germany, Ghana
483	MycoSafe-South	European–African partnership for safe and efficient use of mycotoxin-mitigation strategies in sub-Saharan Africa	Austria, Belgium, Ethiopia, Kenya, Norway, South Africa, United Kingdom of Great Britain and Northern Ireland
